The Beyond- Tim Eisenhoffer, Artist
This show is entitled "The Beyond", since once you have broken the rules and danced along the edge, it is very easy to jump over the other side. There is a great sense of relief when one realizes that he is free. It's a bold beautiful place that for all appearances seems to be untouched, it takes your hand and says behold! Though I love painting in this fashion, I am not a slave to it. I come and go as I choose. On occasion someone might say "this guy is all over the map", they may be correct, but it's my landscape! I hope you enjoy the show. Poster prints of select works to be sold for a donation and 100% will benefit the Sheldon Art & Music Educational Program for children.
